

May 26, 2022

Dear Admissions Officer:

As you may be aware, widespread Covid-19 restrictions in mainland China prevented AP test centers and schools in several cities in China from administering AP Exams in May 2022. Makeup testing was not possible, given the scale and uncertainty of the situation in China. Included in this notice is College Board's official list of impacted test centers and schools for verification purposes.

We encourage all universities that require qualifying AP scores in order to confirm offers of admission to extend as much flexibility as possible to impacted students.

AP Art and Design (Drawing, 2D, and 3D) and AP Research do not have an end of course exam and were not impacted by closures. Students can receive an AP score if the student's portfolio work was submitted by the exam deadline.

### Subjects Impacted by Closures

**AP Seminar** students unable to complete an end-of-course exam due to closures do have an option to receive a score based only on submitted Performance Tasks. The maximum possible score for an AP Seminar Exam which does not include a completed end-of-course exam is 2 (out of 5).

Test centers don't administer [all AP Exams](#). Only the subjects below were scheduled at test centers and were impacted by closures.
