

The PSAT-Related Assessments

Help your students take the first step on the road to college.

How the PSAT™ 8/9, PSAT™ 10, and PSAT/NMSQT® help your students get ready for college:

- **PSAT 8/9** is the first step on the road to college
- **PSAT 10** offers additional practice opportunities
- **PSAT/NMSQT** prepares students for the SAT®

Get students started early and offer check-in on progress.

Use students' scores to show strengths in particular areas so teachers can help students make the connection between academic and career success.

Flexible test administration options. Depending on their goals, schools can administer the PSAT/NMSQT to 10th and/or 11th graders in the fall; PSAT 10 to 10th graders in the spring, and PSAT 8/9 is offered in the fall and spring.

Free, personalized online Official SAT Practice through Khan Academy®.

Official SAT Practice provides students with a personalized SAT study plan based on their performance on the PSAT 8/9, PSAT 10, or PSAT/NMSQT.

Connect students to AP® courses. The score report will show AP courses that are a great match for your students. AP can give them an edge in the admission process and an opportunity to earn college credit while in high school, allowing your students to save money, study abroad, or take on a second major.
